Designed Smart

Developed for high output in tight spaces!

- The X*Press™ generates up to 300 slices of toast per hour.
- Designed to fit into tight space areas on counters.
- Toasters have extended super feeder and warming area to allow for high volume production.
- Unique warming area keeps toast at the perfect temperature until you are ready to serve.

Maximum Versatility!

- A variable speed control for the conveyor produces optimum results in toasting color and texture.
- Able to handle a variety of breads, bagels or muffins.

Safest Toaster in the Industry!

- Protects your employees with "Cool Touch" exteriors...both sides and top surfaces.

Easy to Maintain and Service!

- Conveyors and crumb trays are easily accessible and simple to clean.
- Removable Side panel allows easy access for service.
- Ability to turn on and off top or bottom heating element.

Built Solid

Built to Last

- Stainless Steel construction protects against kitchen wear and tear and rust.
- Metal sheathed heating elements offer enhanced durability and consumer safety vs. quartz tube heating elements.
- High temperature insulated wire is used for long life.
- High temperature bearing never require lubrication.

Reliability backed by APW Wyott's Warranty

- All APW Wyott toasters are backed by a 2-year parts and labor warranty, including on-site service calls within 50 miles of authorized service technicians.
- Certified by the following agencies:

**AT EXPRESS RADIANT CONVEYOR TOASTER**

APW Wyott Design Features
